God has ways of working things out to bring glory to Himself, so that no one will boast of doing anything. I have seen God transforming lives of people, whom the community had given up on them. The change that took place from inside out had made them important people in their community where they had been written off. They are being consulted for advice in the community. This shows that nothing is impossible with God. Among the people that God has transformed lives, there was a lady called Mrs. Makobane. This lady was known as a fighter and trouble maker. The chief had written a letter warning her that she will be sent away from the community if she continued with her behavior, but nothing changed. She kept fighting with neighbors, until the day she gave her life to Jesus. Most people didn't believe she had changed including her husband. Some were saying change is temporary. Her changed behavior became a testimony to many, also to her family. Months pass without her being called to the community court to be disciplined. Some people were wondering if she's still around in the village. She is still around and visiting people's houses and telling them about the Christ who changes lives and gives people new hope.

Some people said if this woman is changed, there is God. And gave their lives to Christ, also some of her family members and they have joined our fellowship now. Her husband is very happy with her and bought her a phone as part of appreciating her. The fellowship is growing and we thank God because lives are being healed and restored. Now we meet on Sundays for two hours as per the government rules of COVID-19, with a few numbers. People are growing in their relationship with God. We are looking for a new place because where we have been meeting the owner needs her place. Now we have a worship team and women are meeting on Wednesdays. Work of God is really growing and we're happy to have people available to help in discipline those who receive Christ. Some needed Bibles and two ladies gave money to buy those Bibles. I am convinced that this is the work of God. He has been faithful in providing for those who follow Him.

Therefore, since we receive a kingdom which cannot be shaken, let us show gratitude by which we may offer to God an acceptable service with reverence and awe... Hebrew 12:28

During the lockdown when people were not going to work due to the government restrictions, we were able to distribute food to the members of the fellowship and other people around the community who were needy. This was possible through the food donations from our friends.

Doing ministry using social media goes well and it is encouraging when young people were ministering from each other without being pushed. It shows the growth among themselves and respect. During this time of pandemic lot of young people have been showing leadership skills by leading Bible studies and the issues that young people are facing. Although it was challenging with data, where sometime they will use their data unwisely and miss some lessons. Using social media has help many because they didn't have much challenge when the schools has to teach them WhatsApp because they were already using it.

We had a wonderful time to witness the wedding of two young people whom I worked closely with and see them grow in a holistic way. Thank God that today they are the men of their family and the well lead their family in a godly way. During this time of celebration that's where I contacted covid-19 from. A day after the wedding I started feeling sick and tried to take some drugs but it was getting worse day by and that is when I decided to consult a doctor who after questioning me and knowing the way I was feeling he said those were the symptoms of covid-19. I was in isolation for two weeks not seeing anyone or going anywhere. I was down even during the New Year and was not able to celebrate my birthday as it falls on the 31st December. It was the terrible experience that I've ever gone through. After the first week of January I got better. It was a very hard experience to go through but I thank Jehovah God for healing me while others didn't make it. My life was full of fears from what I was hearing around that people are not recovering. But I thank God because I had people who stood in the gap on my behalf. I have recovered, I continue praising God for the miracles of healing me and noticing that life is a gift from God. I came to believe in the scriptures in the book of romans 8:28 that say "for we know that in all things God works together for the good of those who love him and those who are the called according to purposes."

Therefore, since we receive a kingdom which cannot be shaken, let us show gratitude by which we may offer to God an acceptable service with reverence and awe... Hebrew 12:28

Praise God for the protection of families during this time of pandemic.

1. We honour the Lord for this faithfulness in providing for the needy families.
2. Thank God for touching people's hearts to help us with Bibles
3. Thank God for healing over my life and other people that were sick. Also for providing medications
4. Praying that God will sustain new believes to hold on the word and trust Him completely.
5. Praying that God will provide a place of meeting.
6. Praying that God will be able to touch the hearts of people to help as we will be having soup kitchen and sharing Christ.
7. Praying that God will provide job for those who are jobless because of covid.

Therefore, since we receive a kingdom which cannot be shaken, let us show gratitude by which we may offer to God an acceptable service with reverence and awe... Hebrew 12:28
